NEW PLAN FOR SALE OF CITRUS FRUITS

A circular which will be of particular interest to the citrus fruit growers of this and adjoining states, was recently issued by the New York State Department of Foods and Markets. The offices of the department are located at 294 Franklin street, and will be in charge of Commissioner John J. Dillon.

It is the purpose of the new organization to give the growers the greatest opportunity that they have ever had, to economically market their fruits in the New York market.

This The New York State Department of Foods and Markets will sell citrus fruit through its auction market, at a charge of 2 1/2 per cent commission. The only additional cost to the grower is the necessary charge for cartage on the samples of each lot or car lot of fruit when the samples are brought to the auction house at 294 Franklin street, New York City, and a very small charge for cataloging and listing the fruit. In no case will any cartage be charged against the shipper where the fruit is not actually carted. The buyer will pay his own cartage, the same as he does on all California fruits.

Oranges, grape fruit and lemons sold at auction being the highest price of any system of selling that has ever been devised and assures the grower he will not be robbed nor defrauded out of a single cent that his goods bring. The fruit is sold in actual carted. The buyer will pay his own cartage, the same as he does on all California fruits.

Heretofore it has been customary for Florida and other southern points to ship fruit and vegetables to commission men, who charge them from 5 to 10 per cent commission, and in many instances the fruit is sold to jobbers who take an additional 10 per cent profit out of it before it reaches the retail distributor. Under the auction system, the retail distributors have an opportunity to buy from first hands and it should show a saving of at least 15 cents a box, to citrus fruit shippers throughout the world.

The department will accept shipments less than car load lots and will furnish shipping stamp on application. The New York State Department of Foods and Markets has been devised by the people of the state for the purpose of effecting a direct and economic distribution of foods from the producer to the consumer. The purpose is to get a better return for the producer, and through the economy of distribution, help reduce the high cost of living to the city consumer. Its duty is to investigate all cases of complaint on the part of shippers, so that southern fruit and vegetable shippers will have an agency in New York to protect their interests.

Growers and shippers of fruits and vegetables are invited to correspond with the department and to secure its information on market conditions or any service that the department may be able to furnish them.

SUFFRAGISTS MAKE BIG DRIVE IN AN OVERLAND

Armed with a message for the President of the United States, three women have traveled over 5,000 miles in an effort to further the cause of equal suffrage. A petition signed by half a million women at the San Francisco Exposition was entrusted to their care, and on the trip across country enough additional signatures were obtained to swell the total to what is probably the longest list of names ever secured on a petition of this kind.

The ladies, one from Oregon and two from Rhode Island, after looking over the motor car offered in San Francisco, bought a Model 82 Overland, believing that they could secure the greatest mileage and service from the car, as well as knowing they could receive attention from an unlimited number of Overland dealers en route.

Miss M. A. Kinberg acted as driver, Miss Ingeberg Kindstedt as mechanic and Mrs. Sarah Bard Field as utility driver and helper.

During the trip the car had an average gasoline mileage of 16 miles per gallon, using one quart of oil in the first 250 miles and averaging 100 miles to the quart on the rough stretches. The highest speed attained by the lady driver was 52 miles per hour, and then she admitted she was going some.

One blinding snowstorm was encountered from Laramie to Cheyenne, the first of the season.

Mrs. Field, the speaker of the trip, is carrying a message to the President of the United States from the women voters of the west, and in this trip, as well as riding, they have been stopping at all the cities along the way, speaking on the equal rights of women and have used their car as a platform in several places. The message to the President asks his support for an amendment to the national constitution giving women the ballot.

Hayden Happenings

Mrs. Couchman entertained with five hundred Thursday afternoon. Mrs. Charles Thew made the highest score, winning the prize, a dainty hand painted plate. Mrs. Couchman served a delicious luncheon after the games and Mesdames Thew, Solbar, Fellows, Alexander and Richards enjoyed her hospitality.

The wee young ladies of Hayden are very busy soliciting votes secured by selling tickets at 5 cents each, good for one vote. The one receiving the largest number of votes will receive the beautiful doll on exhibition in Knight-Thompson's show window. The proceeds go to the M. E. church. She expects to carry a full line of stationery, books

Mr. and Mrs. R. B. Vinson, of Tucson, spent the week-end with Mr. and Mrs. C. C. Green and other relatives in the community. Mr. Vinson is one of the pioneers of the valley, having come here in 1884.

After spending twenty years here he removed to Tucson, where he is now county recorder of Pima county. He notes with pleasure the wonderful advancement made in the valley during the past fifteen years. After visiting the bean fields where Mr. Green's threshing is turning out the best crop of beans ever harvested in the valley he expressed great surprise at the stupendous success of this industry that 50 years was considered unprofitable in this valley. The family returned to their home in Tucson the first of the week.

Mr. and Mrs. J. A. Merritt are rejoicing over the arrival of a fine daughter at their home on November 25.

Rudolph Kuchler, president of the County Farmers' Union, is in Los Angeles on business this week. J. A. Rudd spent a few days with his family at Tempe last week, where he found them suffering with tonsillitis.
